Please note: This flowchart is one example of how students can graduate in 2 years. Many times transfer students need longer than this. We encourage students to this use as a tool in creating their own unique quarter by quarter graduation plan.

<p><b>This Transfer Student Flowchart assumes equivalents for the courses below have been transferred to Cal Poly. Anything not transferred in needs to be added to this flowchart, which may result in an additional quarter/s. **Notes:**

- \* Refer to current catalog for prerequisites.
- \*\*Refer to online catalog for GE course selection, United States Cultural Pluralism (USCP) and Graduation Writing Requirement (GWR). USCP requirement can be satisfied by some (but not all) courses within GE categories: C1, Upper-Division C, D1, D2, D Elective, or E.
- \*\*\* Refer to current catalog for course selection and guidelines for technical electives.
- † Course can be taken previously or concurrently.
- <sup>1</sup> Required in Support; also satisfies GE
- # 2-4 units Approved Engineering Science Elective. See catalog. No double-counting of coursework with other requirements. Consultation with advisor recommended.
- <sup>4</sup> 24 units Technical Electives. See catalog for course options and additional guidelines.
